## HF EVOLution

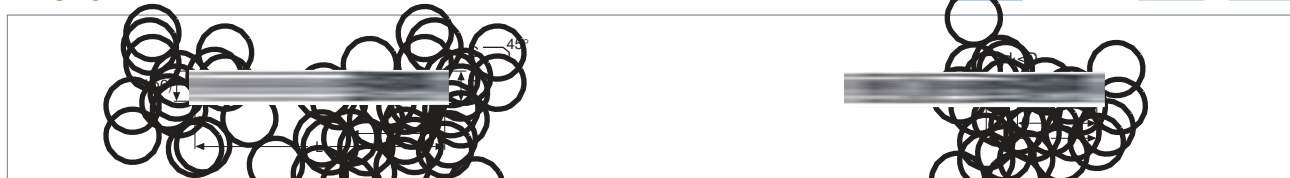

✚ Variable helix and unequal pitch for universal application, allowing a very high stock removal rate.

● Hochleistungsfräser mit ungleicher Teilung und Winkel, für universellen Einsatz: geeignet für hohes Zerspanvolumen.

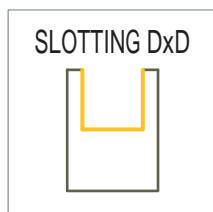

🇮🇹 Elica variabile e passo differenziato, per applicazione universale: altissimo volume di truciolo asportato.

🇫🇷 Hélice et pas variables pour une application universelle : un taux très élevé d'enlèvement du copeau.
